SHARP'S EL PASO TURF MIX

PLANTING RATE 5-8 LBS. PER 1000 SQ. FT.

A blend very popular with those folks seeking to emphasize the 'SOUTHWEST' look. We added cool-season "wild" grasses to the NATIVE TURF blend for earlier spring green-up and later fall color. The texture and uniformity of this sod is highly variable compared to NATIVE TURF.

35% Crested Wheatgrass, Fairway
30% Annual Ryegrass
23% Buffalograss
12% Blue Grama
