EMERALD III (TALL FESCUE)

PLANTING RATE 8-12 LBS. PER 1000 SQ. FT.

A blend of elite varieties of Turf-type Tall Fescue. EMERALD III has a fine texture, rich dark green color and dense, uniform turf, with bluegrass-like qualities. EMERALD III is tough and durable. It's cold tolerant and can endure low mowing heights. Once established, it needs less feeding and thrives in hot weather and drought with limited watering. It bounces back from traffic and heavy use. An excellent choice for playgrounds, parks, athletic fields, industrial/business parks, golf course roughs, and home lawns. It will perform well in the shade and has a wide range of adaptability and pH tolerances.
